6/4/02	A01-06-029	Wild Goose Storage Inc., to Amend its Certificate of Public Convenience and Necessity to Expand and

Construct Facilities for Gas Storage Operation.

**Summary:** On May 30, 2002, Michael Day, counsel for Wild Goose Storage Inc. (Wild Goose), met with Belinda Gatti, advisor to Cmmr. Brown, and Peter Arth, Jr., advisor to Cmmr. Peevey, in two separate meetings in San Francisco. At the meeting with Belinda Gatti also present was Laura Krannawitter, advisor to Cmmr. Duque. Day indicated that Wild Goose was preparing to commence construction of its expansion this summer and that a decision from the Commission was required as soon as possible. Day explained that Wild Goose is prohibited from construction during hunting season, the hibernation period of the giant garter snake or during rice harvesting operations. Day stated that the most important aspects of the proposed decision should be to grant the amended certificate with an order immediately effective and to include provisions confirming the existing Gas Storage Service Rules, and requiring Pacific Gas and Electric Company to refrain from implementing its proposals to discriminate against customers utilizing independent storage.

6/5/02            R02-01-011            Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.

**Summary:** On June 3, 2002, Frank Perdue, consultant to the California Department of Water Resources (DWR), had a communication with Aaron Johnson, advisor to Cmmr. Lynch, via telephone. David Gamson, advisor to Cmmr. Brown, Steve Weissman, advisor to Cmmr. Wood, Chloe Lukins of the Energy Division, and Craig McDonald and Jim McMahon, consultants, and Andrew Ulmer, counsel, for DWR, also participated in the communication. Written material (attached to the notice) was used. DWR representatives discussed the May 17, 2002 DWR memorandum regarding direct access scenarios, including that the revenue shortfall identified in Table 1 formed the basis for a bond charge component of an exit fee under the revised base scenario.

6/5/02            A00-06-023            Southern California Gas Company, regarding Year Six (1999-2000) under its experimental Gas Cost Incentive Mechanism and related gas supply matters.

**Summary:** On May 31, 2002, Bruce Foster, Vice President of Regulatory Operations of Southern California Edison Company (Edison), contacted Belinda Gatti, advisor to Cmmr. Brown, by telephone. Foster stated that any investigation issued in conjunction with the Gas Cost Incentive Mechanism decision could be limited to transportation, hub services, and activities affecting the Southern California gas market and that it would not be necessary to order a statewide investigation. Foster indicated that increases in the

price of gas at the California border contributed to increased electric generation costs that added to the costs paid to the qualifying facilities during the last quarter of 2000 and the first quarter of 2001.

**Summary:** On June 6, 2002, Scott Logan, project coordinator for the Office of Ratepayer Advocates, sent to ALJ Gottstein an email (attached to the notice). In the letter, Logan explained how he arrived at the conclusion in his testimony that ‘for every five years of average hydro conditions, there would need to be eight years of drought conditions for the Project to be cost-effective in the long-term’.

6/7/02            A00-06-023            Southern California Gas Company, regarding Year Six (1999-2000) under its experimental Gas Cost Incentive Mechanism and related gas supply matters.

**Summary:** On June 7, 2002, Mark Pocta of the Office of Ratepayer Advocates (ORA) met with Cmmr. Brown in San Francisco. Also present were Belinda Gatti, advisor to Cmmr. Brown, and Marcel Hawiger, staff attorney of The Utility Reform Network. Pocta addressed the reasons that ORA agreed to the – 10 Bcf downward tolerance for storage inventory and the concerns with a strict 70 Bcf. Pocta stated that the strict inventory unnecessarily constraints Southern California Gas Company’s flexibility and requires that storage injections be maximized. Pocta added that if the Commission was interested in investigating the reasons for high California border prices then a statewide investigation was more appropriate than an investigation focused only on SoCalGas. Pocta noted that the proposed decision is a better structure for making any changes because it more accurately reflects the record evidence.
